Rewrite the Abstract as follows:

**A b s t r a c t ABSTRACT OF THE DISCLOSURE**

The invention relates to a A pneumatic suspension unit for a vehicle, comprising includes pneumatic suspension bellows ~~(3)~~ and an electronically controlled level control unit ~~(1)~~, which aerates and bleeds the pneumatic suspension bellows ~~(3)~~ as required by means of an electrically operated valve device ~~(6, 7, 32, 33, 44, 45)~~. The invention provides a pneumatic suspension unit for a vehicle, which is equipped with an electronic controller for the level control and in which the level of the vehicle body can nevertheless be modified during an interruption or malfunction of the power supply. To achieve this, the inventive system comprises at At least one manual actuating element ~~(18, 19)~~, is provided which, when manually actuated, permits the aeration and/or bleeding of the pneumatic suspension bellows ~~(3)~~, and modification of the level of the vehicle body, even during an interruption or malfunction of the power supply to the electronically controlled level control unit ~~(1)~~.
